Recessed door and drawer fronts.

FEATURES

Pleasing soft profiles and rounded corners eliminate sharp edges to help prevent bruising and scraping.

Easy-to-clean Thermofoiled seamless profile edge surface on tops, doors, drawer fronts, riser, closed base and open base help prevent bacteria build-up.

Drawers with ball-bearing, full-extension metal drawer glides with positive stop safety feature which prevents drawers from pulling out.

Vinyl wrapped miter fold drawers also help make cleaning easy.

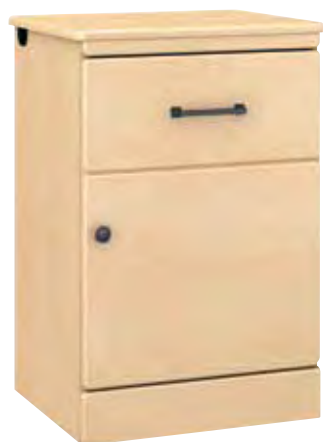

Adjustable shelf and garment rod inside wardrobes.

Concealed door hinges for a clean aesthetic.

Vented back panel (bedside cabinets and chests) allows for air circulation.

Adjustable floor leveling glides.

Field-replaceable components ensure a long, useful life.

(closed base shown)

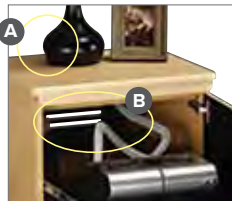

CPAP CABINET FEATURES:

Sliding top for easy access.

Cut-out for CPAP hose.

(A) Integrated wire management and (B) vented back panel.

NEW Bedside CPAP Cabinet: Right Door Hinge

At M & M Healthcare we will work with you to realize custom products that adapt to your unique environment. We work directly with you to achieve your specific layout and mechanical specifications. Our CAD capabilities assure that all production considerations are addressed during the initial design stages and that the final product meets your expectations.

We use 3-D laminates to deliver both beauty and exceptional functionality that is easy to clean and provides superior infection control. 3-D laminates allow us to minimize safety concerns while creating smooth, soft edges for aesthetic appeal. Whether a short run to satisfy refurbishing needs or a high volume project for a complete facility, M & M Healthcare is ready to provide you with customized products ideally suited for your specific situation.

Upon customer request, we can provide many of our products as FSC®-Certified which may contribute to LEED credits.
