

Since 1978, the goal of M & M Healthcare Furnishings Solutions, Inc. has provide the highest product value and most outstanding level of service in the industry.

The Bristol, Callah, Heritage and Claiborne Collections bring a new level of furniture durability and maintainability while closely resembling natural wood. These four series offer door and drawer profiles with the detailed elegance of handcrafted wood cabinetry, but are constructed using new Thermofoil door and drawer front components. At the same time, we have retained the standard quality of a captured back and hardwood dual dowel that are mechanically reinforced and pocket mortise screw construction.

## HEALTHCARE APPLICATIONS

### Seamless Styling for Clinical Environments

Our seamless components are ideal in health care settings. Softer edge profiles eliminate sharp corners and our seamless surfaces leave bacteria now where to hide. Our thermofoils are coated with a high performance topcoat that resists marring, scratching and staining. Thermofoils are impact resistant and well suited to applications on mobil carts and rolling parts found in the healthcare environment. Add functionality to designs, too - recessed areas for spill guards or cup holders and cut out openings for hazardous waste or wiring are easily created.

If you are searching for the look of solid surfacing at a fraction of the cost, membrane pressed components can deliver a lot of value at an affordable price tag. We have a growing number of prints, solids and woodgrains that mix well with current healthcare color palettes. Our membrane pressed components are ideal for:

- Instrument trays
- Food trays
- Service Counters
- Nurses Station
- Tabletops for breakroom and cafeterias
- Desktops
- Headboard/footboards
- Mobile tables
- Decorative wall panels
- Cabinet doors, drawer fronts, frames and moulding

# Thermofoil Components

## 5 year Certificate of Warranty

All components manufactured by M & M Healthcare Furnishings Solutions, Inc. are warranted by the manufacturer to its customer against defects occurring in the manufacturing process, subject to the terms and conditions as stated in this warranty Certificate.

The manufacturer also guarantees the product against delamination or surface discoloration for a period of 5 years from the date of original installation.

The warranty only covers defects as specified herein and does not include defects or damages attributable to installation, misuse or normal surface weathering, or defects or damages caused by accidents or fire or other casualty or acts of God, or any other causes or occurrences beyond the manufacturer's control. The exclusive remedial action provided for the customer hereunder shall be repair, restoration or replacement of the components as are found to be defective.

The replacement of new materials for those as may be defective may result in a color variance in comparison to the originally installed laminates due to slight color or texture changes by laminate manufacturers and is not indicative of a defect. M & M Healthcare Furnishings Solutions, Inc. reserves the right to substitute such laminates as are then being manufactured and is only obligated to match color and quality with such products as it is manufacturing at the time of replacement.

This warranty is limited to repair, restoration and /or replacement by M & M Healthcare Furnishings Solutions, Inc. of any defective unit provided the manufacturer: (a) receives a written notice of claim under this warranty, and (b) within 90 days after notice of claim, is in receipt of the defective unit at its place of business, 270 CR 3516 Dike, TX 75437. Under any circumstances, the cost of shipping the units to and from the manufacturer shall be paid for by the customer.

**Limit of Liability:** IT IS UNDERSTOOD AND AGREED THAT MANUFACTURER'S LIABILITY, WHETHER IN CONTRACT, IN TORT UNDER ANY WARRANTY, IN NEGLIGENCE TO OTHERWISE, SHALL NOT EXCEED THE RETURN OF THE AMOUNT OF PURCHASE PRICE FOR THE DEFECTIVE ITEM PAID BY PURCHASER AND UNDER NO CIRCUMSTANCES SHALL SELLER BE LIABLE FOR SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES. NO ACTION, REGARDLESS OF FORM, ARISING OUT OF THE TRANSACTIONS UNDER THIS AGREEMENT MAY BE BROUGHT BY THE PURCHASER MORE THAN ONE YEAR AFTER THE CAUSE OF ACTION HAS ACCRUED.

Some states do not allow limitations on how long an implied warranty lasts, and some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions herein may not apply to you. This warranty gives you specific legal rights, and you may also have other rights, which may vary, from state to state.

# Thermofoil Care and Cleaning Guide

## Regular Care and Cleaning

Always use a cotton cloth or non-abrasive sponge.

- Option 1: Wipe with a damp cloth or sponge with mild dish soap.
- Option 2: Wipe with a damp cloth or sponge using a 50/50 mix of water and Simple Green®. (Simple Green works well on oily or tacky surfaces.)

## Cleaning of Stains (Infrequent Care)

Always use a cotton cloth or non-abrasive sponge.

- Step 1: Using a damp cloth or sponge with a 50/50 mix of water and Simple Green, scrub lightly for 10 or 20 strokes. This should remove most stains. If stains persists, move to Step 2 and if necessary, Step 3.
- Step 2: Using a damp cloth or sponge with Buckeye Workout®, standard Fantastik® (S. C. Johnston), or standard Formula 409® (The Clorox Co.), lightly wipe for 10 - 20 strokes. Buckeye Workout is a commercial cleaner and readily available from a local distributor - call: (314) 291-1900. Note: Buckeye Workout contains water & propylene glycol phenyl ether.
- Step 3: Place a cloth or sponge damp with 70% Isopropyl Alcohol on top of the stain for 30 minutes. After 30 minutes, remove the cloth or sponge and wipe. This should remove makeup, ball-point ink, and other stubborn stains. If stain persists, repeat Step 3 until stain is removed.

## Disinfecting Thermofoil Surfaces

A mixture of 10% bleach, 90% water can be used as a disinfectant on most thermofoil surfaces. Before using mixture on an entire surface, be sure to test it on a non-visual spot.

## Cleaners to Avoid

- Any abrasive cleaner
- Most solvent based cleaners and harsh chemicals such as sink & toilet bowl cleaners
- Any cleaner in combination with brush
- Cleaners containing ammonia
- Baking Soda

If a harsh chemical is spilled on a thermofoil surface, wipe it up immediately. Then wash the surface with soapy water and rinse several times.

## Product Limitations

Thermofoil products are not intended for use as cutting surfaces; always use a cutting board. Do not place hot pans from a stove directly onto thermofoil surfaces. This product is intended for use in exterior applications.
